- **Triangulation** which is an explanation of DNA results and their use in Family History.
- **Colonel Robert Warburton 1811-63** I had planned the first article to be on Robert's son, also called Robert, but the circumstances of his son's birth are so dramatic in their own right that I decided to focus firstly on his parents, and to save Robert junior for a later issue.

Issue 2

- **Who was Bancroft's Mother** which explores the facts, and indulges in some speculations about the origins of Bancroft Warburton, the base son of Elizabeth Warburton and John Bancroft who was baptised at Bowdon St Mary in 1738.
- **My Phylogenetic Tree** which explores the consequences of my DNA matches.

- **Colonel Sir Robert Warburton 1842-99** In Issue 1 I had an article on Colonel Robert Warburton, who, as a gunnery officer, participated in the First Afghan War. This is the story of his son who was born in an Afghan fort during that war before escaping to India with his mother, an Afghan Princess. Robert Junior became famous for his exploits on the North West Frontier where he was the Political Officer in charge of the Khyber Pass.

- **The Diary of Henry Warburton** which is a transcript of the diary Henry kept on a voyage from Australia to England in 1880-1.

Issue 5

- **A Tragic Event** contains the **Warrington Guardian** transcripts referred to above.

- **A Lancashire Clan** is this issue's DNA article. Recent DNA results have produced a small group of matches and near matches that caused me to take a closer look at mutation rates, and allele frequencies. This article discusses my findings and conclusions.
- **Choppy Warburton and his Little Black Bottle** is the story of a 19th century athlete who became an early and successful trainer of cyclists before falling from grace and earning a reputation as the man who introduced drugs into cycling. - **My Warburton Theory** In order to assess what we might know I have adopted a scientific approach of setting out a theory that best explains the known facts. As new information comes to light this theory may be strengthened, invalidated, or need modification.
- **Is Warburton Single Origin?** Whilst the name Warburton derives from a single geographical location, a recent article in the Journal of One Name Studies suggests there are too many Warburtons to have been descended from a single first Warburton.
- **The Cheshire Group** The most significant development is the identification of a

The Button Files

matching group of Warburtons and Duttons which appears to descend from Odard de Dutton, and which forms a group within a larger group called The Kings Cluster. The Warburton half of this group is the Cheshire group comprising 10 matched DNA results. This article describes the members of the group, their Dutton match, and the Kings Cluster.

- **Three Unusual Siblings** One of my earliest mysteries revolved around an unmatched DNA result from a family descended from a Josiah, normally a name associated with my own clan. It now transpires that Josiah was make believe and we were dealing with an Alice Warburton who had three illegitimate children with three fathers. However Alice is linked to my clan.
- **The Origins of the Garryhinch Clan** I was prompted to explore the clan's origins further by comments in the biography of PGE (Eliot) Warburton MC. I found an article in **The Cheshire and Lancashire Historical Collector** dated February 1st 1854 that refuted a number of claims made by contemporary members of the Garryhinch clan. These claims were based on erroneous material in the 2nd edition of **Burke's Landed Gentry**. I was also able to extend the clan with information from Eliot's

The Button Files

biography, and from Gary Merrill. Finally Eliot's daughter Anne, Britain's first female ambassador, died in 2015.

result that a major part of it became a new Tilston clan. Furthermore a DNA test produced a match with another previously unmatched clan..
